## Reiki

Reiki is both a traditional Japanese natural healing method and a spiritual path to enlightenment. As a treatment method, it is often seen as an alternative, additive natural medicine.

Reiki is a form of energetic body work and is a gentle and powerful treatment for body and mind. Reiki is suitable for physical issues and mental and emotional well-being; stimulating the wholeness of the person.

You will receive Reiki treatments at a professional level from someone who has completed the training to become a fully licensed Reiki Practitioner (RP) or a recognized Reiki Master (RM).

You can learn Reiki yourself. During a course you will gain the ability to receive the reiki-energy and pass it on to yourself and others.

Practitioners affiliated with the Reiki Ryoho Foundation work according to the most traditional form within this method.

The name Reiki Ryoho and the logo, which stands for the organization and the concept of Reiki therapy, are reserved for affiliated professionals.
